

Stalder AG, Münsingen, receives compliments!

The audit of the successful certification according to ISO 9001 for the electro company Stalder AG in Münsingen has given the responsible persons high praises: (quotation from the test report). "The material stored in two Paternosters cabinets of Kardex is outstandingly designed and solves the problems. Space, overall view and access times are optimally organized. Well done!"

The warehouse was reorganized completely; prior the situation presented itself like this:

Thanks to the space-saving advantages of the Kardex-Paternosters the existing space could be put to better use. Both systems, together, offer approximately 2500 storage locations. Access is done according to the well known principle: “goods to the person”.

Kardex-Industrieviers, the flexible dynamic storage- and preparation-system are for the Stalder AG and their employees a true gain!

The example of this successful electrical company can, by all means, be recommended!. The specialists from Kardex will be glad to advise you when it has anything to do with modern logistic solutions; let yourself be surprised by the various winning ideas!

The Kardex-Systems at the firm Stalder: the experts are enthusiastic about the achieved solution!

Kardex congratulates the people of Stalder AG to their ISO certification and wishes continuous success for the future.
